ANALYSIS

The project is located within the SC (Service Commercial) land use designation with a base zone of C-1 (Limited Commercial) consistent with the General Plan land use. The proposed alcohol use is subject to the distance separation requirements of Title 19.04 which prohibits the use from operating 400 feet within religious facilities, child care centers, city parks, and schools. The project parcel conforms to the distance separation requirement and as such complies with the underlying General Plan as well as C-1 (Limited Commercial) Zone.

At the request of the applicant and concurrence by planning staff regarding recent changes in alcohol packaging that involves the use of screw capped bottles, the Special Use Permit will allow for the sale of product containing this feature.

FINDINGS

In order to approve a Special Use Permit application, per Title 19.18.060 the Planning Commission and City Council must affirm the following:

- 1. “The proposed land use can be conducted in a manner that is harmonious and compatible with existing surrounding land uses, and with future surrounding land uses as projected by the General Plan.”**

The proposed accessory alcohol use will operate within a proposed General Retail establishment and will be located directly adjacent to existing commercial and residential uses, Las Vegas Valley Water District pump station facility, and an undeveloped residential parcel. The use can be implemented to complement surrounding land uses.

- 2. “The subject site is physically suitable for the type and intensity of land use proposed.”**

The project use will be an accessory service within a proposed retail site development to be considered concurrently with this request. The project area is capable of accommodating the proposed project.

3. **“Street or highway facilities providing access to the property are or will be adequate in size to meet the requirements of the proposed use.”**

Street operations and capacity as well as site access on Vegas Drive will be available to accommodate trips generated by the project.

4. **“Approval of the Special Use Permit at the site in question will not be inconsistent with or compromise the public health, safety, and welfare or the overall objectives of the General Plan.”**

The project will be subject to inspection and as such will not adversely affect human health and public safety.

5. **The use meets all of the applicable conditions per Title 19.04.**

The proposed use adequately addresses all special use permit requirements.
